I Zachary Taylor Vicar of Ormskirk, & one of the Trustees of the Grammar School there; finding an Order made by the Trustees, (in consideration of the Insufficiency of the Stipend, which by the negligence of some former Trustees, I hear was lost & dissipated) to raise the same, by imposing on every Scholar according to his Proficiency a certain Quarterly payment.

Not disputing their Power & authority at first to order it, yet being ordered, do Protest that y^e Removall or Non-Continuance of it is against my Mind. And I do declare that it doth tend to the utter Ruin of the School: the Decay of Religion, for want of such Catechizing as an Ingenuous School-master would exercise them in, the advantage of Quakerism (too much increased) thro want of Knowledge; & many more Inconveniences then at present we can foresee. Therefore to Clear my Innocency, as to those insufferable wrongs, which Posterity & Infancy is like to suffer, I declare against it,

In testimony whereof I Subscribe my name

I Silvester Sutch one of the ffeoffees of the ffree Schoole aboue said doe declare that I conceive the ffeoffees had noe power to make the aforesaid order and that if it should be continued it would tend to the distruction of the ffreedome of the ffree Schoole Contrary to the intent of the ffounder and to the damage of the inhabitants of the parish wherefore refuseth to Subscribe to the Continuance of it
